Lines & Basic Symbols

- Working hydraulic line
- Pilot line
- Drain line
- Direction of flow
- Hose or other flexible working line
- Lines crossing (no connection)
- Lines connecting
- Fixed throttle, lines with fixed restriction
- Adjustable flow control valve (Throttle Valve)
- Temperature compensated flow control valve
- Vented reservoir
- Pressurised reservoir
- Connection to tank - above fluid level
- Connection to tank - below fluid level
- Plugged port
- Connection to tank - below fluid level
- Quick release coupling (closes when decoupled)
- Quick release coupling (still open when decoupled)
- Mated pairs of couplings
- Orifice
- Replaceable orifice
- Plug in place of replaceable orifice
